5kWh mobile energy storage power supply

Overview

The 5KW/5kwh mobile energy storage trolley integrates energy storage batteries and hybrid inverters, which is equivalent to a small mobile power station; as a distributed energy storage power source, it can be used for emergency charging of new energy vehicles or for various small and medium-sized vehicles anytime and anywhere. Electrical equipment provides power applied to emergency power supply, outdoor work, mobile car repairing, weak power supply system and monitor power supply system.
